IPS is a model of supported employment for people with serious mental illness (for example, schizophrenia spectrum disorder, bipolar, depression.) IPS is based on eight principles:

6. Zero Exclusion
7. Time-Unlimited Support
8. Worker Preferences

**IPS Data**
- In CA, only 10% of people in the public mental health system work.
- IPS helps 50% or more of people get jobs. People are 2.5 times more likely to get a job with IPS vs. traditional rehab programs.
- People in IPS work longer stints, earn more, and are more likely to become steady workers than people in traditional programs.
