

UPCOMING INFORMATIONAL WEBINARS:

## MAT in Jails and Drug Courts Learning Collaborative

*Please join us for an optional informational webinar on the new project and application process.  
County representatives will be provided an opportunity to ask questions.  
Three offerings of the same webinar will be offered.*

Participating county teams accepted into the Learning Collaborative will be provided with technical assistance (TA), coaching and funding to supplement county initiatives and projects. This Learning Collaborative will aim to:

- › Increase access to MAT in county jails, drug courts, and the child welfare/juvenile justice systems
- › Improve coordination among all county agencies and providers who serve justice-involved county residents
- › Develop bridges to further build county system capacity to ensure access to effective treatment and recovery supports

Counties may apply to either or both of the participation options below:

- › Implementation Grant (Jail MAT or Drug Court)
- › Participation Stipend (Child Welfare/Juvenile Justice)

***We encourage you to widely share this training opportunity with partners and stakeholders in your county and other counties who may be interested in joining the Learning Collaborative.***

**Please note: all sessions are the same content**
