## Executive Summary

Mental Health Board (MHB) members' experience and passion for mental health translates into energy to make a difference, with the goal of providing the best mental health system possible to the people of Napa County. Through public meetings, site visits, work groups, speakers, and reports from MH Division Staff, we work to understand and advise the Board of Supervisors and the Mental Health Director regarding Napa County's mental health offerings and challenges, including reviewing and evaluating the programs provided by Napa County's Mental Health Division.

Below are top concerns of the MHB followed by accomplishments and a notable fiscal increase reported by the Mental Health Division. The "Status of the MHB" and its many "Goals and Accomplishments" are summarized on the following pages along with information about our board members and acknowledgements.

Top concerns this year include:

- Housing:** Lack of supportive housing and housing facilities for adults with mental illness continues to be a top concern, with both social and financial costs. Board members traveled to Modesto and beyond for site visits. Among the many out-of-county placements, 25 adults (13 seniors) with mental illness from Napa County resided at Davis Guest Home in Modesto in February 2016. Last year, we reported that 70% of residential placements (in Institute for Mental Disease and Enhanced Board & Care) are out of county.
- Children:** Two youth suicides this past school year prompted NVUSD staff to present to the Board, and the creation of a work group to research and report on mental health services and stigma in the schools. The report is scheduled for completion within the next few months.
- Employment:** The Department of Rehabilitation offers support specifically for Californians with mental illness, yet this is not currently offered in Napa County. Employment/vocational services for adults with mental illness have also prompted a new work group, scheduled to report within the next few months.

Accomplishments of the Mental Health Division, as reported by Mental Health Director Bill Carter include improved integrated care, improvements in access, co-occurring mental health and substance abuse disorder pilot program, improved data sharing, analytics and contract oversight, Crisis Intervention Training to law enforcement, acquired grant funding to establish a Crisis Stabilization Unit, implementation of Cognitive Behavioral Therapy for Psychosis and Child-Parent Psychotherapy, Increased forensic mental health staffing.

*Of note:* There was a major increase in the MH Division's 2016-2017 budget recommendation in the area of Services and Supplies "based on the trending usage of Napa State Hospital, indigent contract hospitals and Institutions for Mental Disease placements and residential services." ([Page 350-351, 2016-17 Recommended Budget](#))

*Napa County Mental Health Board members are appointed by the Board of Supervisors. It is part of our mandated duties to provide the Board of Supervisors with an annual report reviewing the needs and performance of the county's mental health system. The following pages document our membership and activities for July 2015-June 2016.*

## Status of the Mental Health Board

**Meetings:** Regular MHB meetings were held on the 2nd Monday of each month. In August, we held a special joint meeting with the Alcohol and Drug Advisory Board. We held two other special meetings in American Canyon and St. Helena.
